AEROSKIRT®

DuraPlate AeroSkirt® is the most durable aerodynamic solution for over-the-road trailers. Made from DuraPlate®, a proven structural composite material consisting of two external skins thermally bonded to a high-density polyethylene core, the DuraPlate AeroSkirt provides superior strength and durability.

The DuraPlate AeroSkirt

is **EPA SmartWay® approved** and produces a **fuel efficiency improvement of 6%**, providing bottom line savings. The panels are constructed in 3 sections for streamlined shipping, installation and repair.

There are fewer total parts which allow for faster install time. Its unique, proprietary design provides unmatched impact resistance making it the most durable trailer skirt available today.

DuraPlate Panel

Custom colors are available

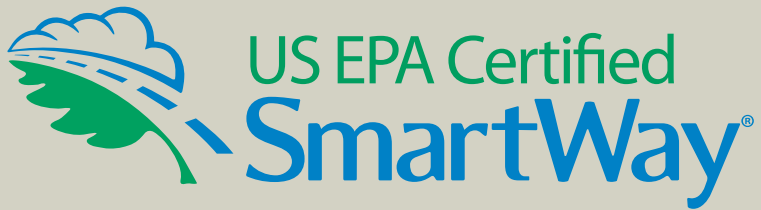

Installs on any make or model

**6.0% FUEL EFFICIENCY IMPROVEMENT
EQUALS REAL SAVINGS**

SAVE \$174* PER MONTH

*Assumptions: 100,000 miles driven per year, 75% of miles driven at highway speed, average fuel cost \$3.00, 6.35 miles per gallon

US EPA Certified
SmartWay[®]

DURABILITY

- Built on the proven strength of the DuraPlate composite panel
- Lightweight and extremely damage resistant

INWARD & OUTWARD FLEXIBILITY

- Incorporates a proprietary spring bracket design
- Bilateral flexing allows for inboard or outboard deflection to reduce damage

FLEXIBLE LOWER SECTION

- Flexible PVC lower section remains rigid on the road but can absorb impact

SIMPLE INSTALLATION

- Constructed in three panel sections to simplify installation and repair
- Easy mount brackets are fastened to crossmembers (4 per side)
- DuraPlate panels are attached to mounting brackets
- Typical installation takes 2 hours

GENERAL SPECIFICATIONS

LENGTH OF SKIRT:	288"
HEIGHT OF SKIRT:	32.5"
GROUND CLEARANCE:	11.5"
WEIGHT:	260 lbs (130 lbs per side)
PANEL MATERIAL:	2.5 mm DuraPlate composite
LOWER FLEX MATERIAL:	PVC
COLOR:	White (standard) Custom colors available

BENEFITS

- Improved fuel efficiency
- Easy installation and repair
- Low total cost of ownership
- Superior strength and durability
- Material is 100 % recyclable

Bilateral flexing allows for inward and outward deflection to avoid damage

DuraPlate composite provides superior durability and strength

Safety tethers secure to crossmember for additional security

Easy-mount bracket fastens to crossmember for additional rigidity

Spring bracket flexes to reduce damage
