

Absolute Bypass Kits

Bypass Oil Filter Kits for Light-Duty Pick-up Trucks

The Absolute bypass oil filter kits come complete with UL rated Parker hose, adapters, and high quality Parker fittings for specific light-duty truck applications. The filter is designed as a top load filter but can be mounted at any angle using the supplied heavy-duty mounting bracket. Oil is taken from the engine by means of the Parker fittings and unique billet machined anodized components, which are included. The clean oil is returned to the crankcase by a billet machined anodized filler cap or drain plug adapter, which is supplied in each bypass kit specified below.

The Absolute bypass kit includes a 5 micron filter installed in the housing. Racor also offers optional 3 micron (**ABS20330**) and 10 micron (**ABS25350**) replacement filters, available through your local distributor.
