

Accident Management

WE WON'T LET ACCIDENTS SLOW YOU DOWN.

We can't prevent accidents from happening. But what we can provide is peace of mind and the knowledge that you and your drivers are in good hands with our comprehensive Accident Management program.

Our Claims Specialists take care of everything, from seamless claims processing, to repair and subrogation recovery. We even coordinate loaner vehicles in the interim, so you'll never miss a beat.

Let us put our decades of experience to work for you, that will efficiently manage the accident recovery process.

Benefits of Fleet Solutions' Accident Management Includes:

- A part of our Safety Training and Driver History Profiling services, you only pay for this service on a per claim basis
- Centralized data storage for better implementation of practices and policies
- 24-hour First Notice of Loss with options to collect customizable information for business continuity
- Unbiased third party determination if the accident was preventable or non-preventable
- Nationwide repair network which will provide extensive coverage, efficient turnaround time, and quality repairs
- Experienced and aggressive subrogation in pursuit of adverse third parties
